- Block1: Fidget FID-jit a restless child guide who knows the fastest ways through the village Warm local guide and pace reset. Directions, blunt questions, and child-eye truth without exposition. Fidget can get the party moving when social play stalls. A route A local question A reminder that Hush is lived-in Fast, curious, and impatient with adult vagueness. Answer plainly and let Fidget be useful.

Matter in a village where adults keep turning fear into quiet rules. Restless, sharp, and starved to be useful before the grown-ups decide the useful part is over. Reads people fast and forgives slow. The bead strings are a walking map only Fidget can fully read: blue for water, brass for tolls, bone-white for the places adults say children should not go. You walk like people who got told where to go by a form. Do you want the fast way or the way adults pretend is safer? That is not a secret. It is just boring when grown-ups say it. Fidget knows which adults are lying about not being worried. Being sent away before the important part happens. Shortcut races, pocket bells, questions with real answers...
- Block3: Fidget expects the PCs to need help and pretend they do not. Warmth and plain answers land. Presence 12 earns a direct route and one blunt warning. Presence 12 Fidget gives the cleanest local route and one blunt warning. If threatened, Fidget bolts and alerts adults; if trusted, they become a noncombat guide.
- Block4: Which paths are muddy, watched, or full of festival traffic. Use Fidget to unstick navigation, not to reveal hidden thesis lore. Knows company names as adult words that make rooms stop laughing. Shows the stakes through a child who expects adults to make places safe. A future check-in can show whether Hush feels safer after the ritual. Varian can track Fidget's route sense; Garrick can make the child feel heard without slowing the game. Attached to Yera, Mama Suet, and anyone who treats them like a guide instead of noise. npc_images portrait asset
