

Soul-Audit Wraith

Player-facing description

Soul-Audit Wraith: A terrifying wraith that attacks memory, vulnerability, and soul tether.

Public role

Soul-debt collector threat.

Handout text

Player-safe: the wraith's presence makes memory feel like something being appraised without consent.

GM truth

Use the stat pressure, but keep the story pressure tied to the system that produced the threat.

GM handling

Run Soul-Audit Wraith as a threat with a motive, a pressure point, and something left behind that explains why the fight happened.

Mechanics

- Title: Combat / Bypass Mechanics
- Player Safe: Players can fight, capture, interrogate, or bypass Soul-Audit Wraith when it is present in the fiction.
- Gm Only: Use the roll only when the player's method, stakes, and consequence are concrete.
- No Roll Reveals: Surface read: A terrifying wraith that attacks memory, vulnerability, and soul tether. Give obvious visible facts freely; roll for meaning, risk, leverage, cost, or a hidden angle.
- Rolls: entity-soul-audit-wraith-engage-soul-audit-wraith entity-soul-audit-wraith Engage Soul-Audit Wraith Engage Soul-Audit Wraith Agility Strength Finesse Presence Knowledge Instinct Agility Strength, Finesse, Presence, Knowledge, Instinct 15 Choose the trait from the player's method, not the entity type. A flat read of Soul-Audit Wraith hides the cost, motive, or useful next step. Critical Success: best possible version of the action; gain Hope and clear 1 Stress. Add an extra benefit that follows from the fiction. Success with Hope: the PC gets what they wanted and gains Hope. Keep the position clean or generous. Success with Fear: the PC gets what they wanted, but the GM gains Fear and introduces a cost, complication, or pressure. Failure with Hope: the PC does not get the full result, but gains Hope and receives a useful thread, clue, or safer next option. Failure with Fear: the PC...
- Fear Spends: Reveal who benefits from the current situation. Make the cost personal

without closing off player agency.

- Condition Options: Vulnerable
- Module Effects: Soul-Audit Wraith module effect: Untethered, if used by the module text; not a global condition.
- Search Loot: If defeated, leaves cold ash and a memory shard.

- Block3: It expects the living to bargain with what they most fear losing. It is not talked down by charm; it is resisted by protection, memory, and refusal. Presence or Instinct 15 creates a beat of leverage. Presence 15 A declared memory or protected bond weakens its hold for this beat. Instinct 15 The player senses which memory it is about to reach for. Ritual completion, memory refusal, or destruction of the audit form ends the threat.
- Block4: The threat reaches for memory and vulnerability. Protecting each other matters mechanically and emotionally. Keep soul-economy as dread unless state gates allow deeper reveal. It is what corporate collection looks like when personhood has been stripped down to function. Embodies the module's hidden cost pressure without forcing an exposition dump. The exact soul-economy conclusion stays GM-only unless players articulate it. Each PC can anchor a Memory Delve beat; no single PC is the required savior. Mirrors Auditor Holle as the endpoint of the same road, but do not explain the whole thesis unless earned. npc_images portrait asset
