

Damage Rolls

What it is

After a successful attack, roll the listed weapon, spell, or adversary damage dice and compare the total to thresholds when needed.

How it works

Use after a hit or when a feature calls for damage.

Step by step

- Use after a hit or when a feature calls for damage.
- After the attack succeeds. Roll the listed damage, then compare it to the target's thresholds or stat block instructions.
- Return to the fiction with the concrete result, cost, or benefit.
