

Domain Cards

What it is

Ability cards selected from a class's domains and arranged between loadout and vault.

How it works

Use when a player asks what their cards do, when a rest allows swapping, or when a feature is triggered.

Step by step

- Use when a player asks what their cards do, when a rest allows swapping, or when a feature is triggered.
- Your active loadout gives usable abilities. During rests, official rules control when cards move between loadout and vault.
- Return to the fiction with the concrete result, cost, or benefit.

Try it
