

Heritage

What it is

The broad character identity layer made from ancestry, community, and the player's chosen story details.

How it works

Use when a player asks what shaped their character before the job.

Step by step

- Use when a player asks what shaped their character before the job.
- Use the exact sheet rules for ancestry/community features; use the rest as story permission and roleplay texture.
- Return to the fiction with the concrete result, cost, or benefit.
