

Hope & Fear Moments

What it is

A table texture tool for translating Hope/Fear spins into local relief beats or pressure beats.

How it works

Use when a roll's spin needs an immediate scene-specific color.

Step by step

- Use when a roll's spin needs an immediate scene-specific color.
- Resolve the official result first, then add a local Hope beat or Fear beat that fits the place.
- Return to the fiction with the concrete result, cost, or benefit.
