

SABLEWOOD-ROUTES - Routes / Underroot / Relays

Player text

Stay on the path unless you know who made the path.

Public objective

Stay on the path unless you know who made the path.

GM goal

Use route choices to ask who gets protected, who pays, and who goes off-network.

GM notes

- Approved route-data is inherited, expensive, and treated as coverage.
- Underroot entrances are secret because maps are power.
- A relay problem can be a route problem, a financing problem, and a soul-signal problem at the same time.
