

Young Dryads

Hook

Player-safe note: Small sapling spirits with bark-textured limbs, leaf hair, green-gold eyes, and shy defensive postures rooted around stones like children guarding a boundary.

Observed Form

Childlike sapling spirits with bark limbs, leaf hair, glowing green-gold eyes, shy defensive posture, roots around stones, spring leaves, and moss.

Behavior

Children of the wood with bark for skin, shy until a kindness is broken. They guard the stones like a held breath, and they only turn fierce when a guest takes the welcome they were given and spits on it.

Warning Signs

Axes and fire, the Hunting Trees that were once kin gone wrong, and guests who smile and then steal.

You Could

- Give it distance before deciding it is hostile.
- Read posture, tracks, and what it is protecting.
