Atlas generated location notes True strong The Sunless Farms A farming region shaped by canopy-darkness, local ingenuity, and crops that do not need corporate sunlight to grow. A farming region shaped by canopy-darkness, local ingenuity, and crops that do not need corporate sunlight to grow. The Sunless Farms grow under canopy-darkness, proving that lack of official sunlight never meant lack of life. The Sunless Farms make farming feel magical and practical at once: shaded crops, fungus lamps, careful schedules, and people who know how to grow food where sunlight barely visits. The place breaks into usable table spaces: Glow-crop beds: Pale crops grow in luminous rows. Fungus lamp racks: Living lights are tended like livestock. Compost heat pits: Warm pits feed the growth cycle. Plants and materials: pale root vegetables, glowmoss, cap mushrooms, shade beans. Animals and background life: white beetles aerate soil, soft blind mice steal seeds, moth larvae pollinate night flowers. The air carries lamp fungus pulse, warm compost steam, cool overhead darkness. Fungus light feeds crops; crop scraps feed compost; compost...
