

Domain Cards

What it is

Ability cards selected from a class's domains and arranged between loadout and vault.

How it works

Use when a player asks what their cards do, when a rest allows swapping, or when a feature is triggered.

Step by step

- Use when a player asks what their cards do, when a rest allows swapping, or when a feature is triggered.
- Your active loadout gives usable abilities. During rests, official rules control when cards move between loadout and vault.
- Return to the fiction with the concrete result, cost, or benefit.

Try it

How do cards work?

Raw source

- Id: domain-cards
- Title: Domain Cards
- Tag: rules-canon
- Summary: Ability cards selected from a class's domains and arranged between loadout and vault.
- When: Use when a player asks what their cards do, when a rest allows swapping, or when a feature is triggered.
- Not When: Do not paraphrase a card's exact rule if the official card is available at the table; point to the card and summarize its timing.
- Question: How do cards work?
- Answer: Your active loadout gives usable abilities. During rests, official rules control when cards move between loadout and vault.
- Example: Before Open Vale, remind players to check any card that helps protect, recover, reveal, or reposition.
