

Fate Rolls

What it is

A one-die roll when the GM leaves an outcome entirely to chance.

How it works

Use when the PCs are not directly causing the result but chance should decide a detail.

Step by step

- Use when the PCs are not directly causing the result but chance should decide a detail.
- Name the stakes first, then roll one Duality Die and interpret it openly.
- Return to the fiction with the concrete result, cost, or benefit.

Try it

Can we just see what chance says?
