

Hope & Fear Moments

What it is

A table texture tool for translating Hope/Fear spins into local relief beats or pressure beats.

How it works

Use when a roll's spin needs an immediate scene-specific color.

Step by step

- Use when a roll's spin needs an immediate scene-specific color.
- Resolve the official result first, then add a local Hope beat or Fear beat that fits the place.
- Return to the fiction with the concrete result, cost, or benefit.

Try it

What happens when Hope or Fear shows up?

- Title: Hope & Fear Moments
- Tag: adaptation
- Summary: A table texture tool for translating Hope/Fear spins into local relief beats or pressure beats.
- When: Use when a roll's spin needs an immediate scene-specific color.
- Not When: Do not replace official Hope/Fear rules; this is a module flavor table layered on top.
- Question: What happens when Hope or Fear shows up?
- Answer: Resolve the official result first, then add a local Hope beat or Fear beat that fits the place.
- Example: In Sablewood, Hope might bring fox-bat help or a safe branch; Fear might bring watching eyes, thorn pressure, or a route sign that notices too much.
