

Stress

What it is

Pressure, strain, and resource cost tracked separately from HP.

How it works

Use when fear, effort, features, or overflow call for Stress.

Step by step

- Use when fear, effort, features, or overflow call for Stress.
- It tracks strain; if Stress maxes, the PC becomes Vulnerable until some clears.
- Return to the fiction with the concrete result, cost, or benefit.

Try it

What does Stress do?
