

Athervast

Player-facing description

Athervast does not have a skyline so much as a spiral. At its heart stand grand pale towers capped in gold, so tall that clouds catch on them, and from that crown the whole city winds outward in vast circular tiers like the inside of a shell.

Public role

Use Athervast as faraway elite-center context, not an active one-shot destination and not a Keystone source. It is marketed as safe because the cost of safety is pushed outward.

Handout text

A city like a coiled crown, where gold-capped towers rise from the center and the rings spiral outward, lower and louder, until the gleam becomes rumor.

GM truth

No forced reveal. Let this entity disclose truth through scene context and player attention.

GM handling

Introduce with sensory texture, then make one discoverable clue or social choice visible.
