

Fire-Falcons

Player-facing description

Three falcons watch from charred branches. Their feathers glow at the edges like coals under ash, and every head turns at once.

Public role

Violent light-bearing Sable Sinecure companion birds

Handout text

Player-safe note: Sleek ember-orange falcons with coal-black wing tips and feather edges like banked fire, beautiful enough for prestige and sharp enough to make a cache feel watched.

GM truth

No forced reveal. Let this entity disclose truth through scene context and player attention.

GM handling

Use as prestige and warning-light pressure for the Sable Sinecure; they signal danger before they become danger.
