

Five Roll Outcomes

What it is

Every action roll resolves into one of five table results: critical success, success with Hope, success with Fear, failure with Hope, or failure with Fear.

How it works

Use after every Action Roll or Reaction Roll where the Hope/Fear spin matters.

Step by step

- Check doubles first for Critical Success.
- If not a critical, compare total to Difficulty.
- At or above Difficulty succeeds; below Difficulty fails.
- Hope spin gives Hope and a cleaner/kinder edge; Fear spin gives the GM Fear and a cost or complication.
