

S03-03 - The Clover Co-op

Player read-aloud

Player questions

- What local custom in Hush reminds you of home?
- Who accepts hospitality awkwardly, and who knows exactly what to do?
- What small repaired object in the Co-op tells you this place survives by care?

GM notes

- Let players invent one cozy custom. Fold it into the epilogue.
- Keep player-facing information actionable. Reveal systemic truth through objects, reactions, and consequences before naming it.
- Manufactured-threat lens: seed the contradiction, do not explain it. The surface goal stays simple and heroic.
- [ADD/GUARANTEED] A Grail "Protection Coverage" invoice hangs on the Clover Co-op wall, overdue and steep.

Checks and rolls

- Presence Accept hospitality without turning it into extraction. Easy Gain gifts and a Custodian warning. 10 Cleanly resolve: Accept hospitality without turning it into extraction. Add a concrete boon, extra clue, or improved position. Success, plus the player names one helpful detail or asks one follow-up question. Success, but the GM exposes a cost, ticks a countdown, or reveals a new pressure tied to The Clover Co-op. The full goal slips, but the party still learns a useful truth or avoids the worst consequence. The GM makes a hard move that follows from the fiction and leaves the next choice visible. Spend Fear to make trust cost time, reveal a local fear, or show a ward symptom that locals have normalized. On mixed or sliding results, reveal information in layers: visible fact, actionable clue, then systemic truth.

Clues

- Custodian warning Be kind to her. This unlocks a warmer Act Four. She is tired of being rushed and called a function.
- Guaranteed seed A Grail "Protection Coverage" invoice hangs on the Clover Co-op wall, overdue and steep. A Grail "Protection Coverage" invoice hangs on the Clover Co-op wall, overdue and steep.

Loot

- Use Clover Co-op gifts table
- Sableleaf Shoes: A pair of shoes sewn entirely from broad sablewood leaves sits light as breath, green-veined, and already leaning toward motion.
- Bugbane Berry?: A fat red-orange berry shines a little too perfectly, with a tiny insect suspended dead-center like a pit in amber. It looks appetizing and deeply wrong.
- Sable Sap: Warm amber sap beads from a crack in a huge trunk like the tree is breathing it out. It smells of honey, woodsmoke, and something older.
- Fire Wine?: A strong golden liquor sloshes in a thick jug, warm going down and warmer staying there. A paper tag insists it is not made from grapes and is absolutely not medicinal.
