- Robust: A carved protective stone that marks where safety begins, hums when the ward is healthy, and sounds wrong when the network is failing. A wardstone is a carved stone node that projects protection, suppresses monster manifestation and wild-magic bleed, records crossings, and, in the GM-only layer, skims soul-signal when tied to Soulspire Solutions' network. Stone face or rune, hairline green-white light, old carving beneath corporate compliance brass. Protect a place from wild magic and monster manifestation while satisfying the systems that own, maintain, power, insure, and bill it. Cracks, skipped maintenance, unpaid contracts, strong magic at the wrong angle, and soul-signal overload. Use when the scene needs a concrete object for players to inspect, carry, debate, or remember. Knowledge / Instinct / Presence as fits the table 15 Learn the clean fact about Wardstone and one deeper connection. Learn the useful fact and gain a follow-up question. Learn the fact, but reveal who notices, who is endangered, or what timer advances. Miss the full answer, but gain a sensory clue or safe next step. Misread the pressure and invite a GM move tied to cost, custody, or danger. Spend Fear to...
- Mechanics: Discovery / Earn-It Mechanics Players can inspect, handle, keep, trade, reveal, or earn Wardstone when it is present in the fiction. Use the roll only when the player's method, stakes, and consequence are concrete. Surface read: A stone ward-node that protects a place, records crossings, and may skim ambient soul-signal when tied to the corporate network. Give obvious visible facts freely; roll for meaning, risk, leverage, cost, or a hidden angle. entity-wardstone-engage-wardstone entity-wardstone Engage Wardstone Engage Wardstone Knowledge Finesse Instinct Presence Knowledge Finesse, Instinct, Presence 12 Choose the trait from the player's method, not the entity type. A flat read of Wardstone hides the cost, motive, or useful next step. Critical Success: best possible version of the action; gain Hope and clear 1 Stress. Add an extra benefit that follows from the fiction. Success with Hope: the PC gets what they wanted and gains Hope. Keep the position clean or generous. Success with Fear: the PC gets what they wanted, but the GM gains Fear and introduces a cost, complication, or pressure. Failure with Hope: the PC does not get the full result, but gains Hope and receives a...
