

Action Roll

What it is

Roll when a PC does something uncertain and consequences matter.

How it works

Use for proactive PC action under pressure.

Step by step

- Player states the action in the fiction.
- GM names the trait that best matches the method and the Difficulty.
- Player rolls Hope d12 + Fear d12 and adds trait, Experience, or advantage/disadvantage.
- Compare total to Difficulty, then resolve the Hope/Fear or critical result.

Try it

Give a player Presence 12 to calm a worried animal, then ask what Hope or Fear changes in the scene.
