

Class and Subclass

What it is

A PC's core playstyle, starting values, features, domains, and Hope Feature.

How it works

Use when explaining what a pregen is good at or when a feature changes a scene.

Step by step

- Use when explaining what a pregen is good at or when a feature changes a scene.
- It tells you your main features, starting Evasion, HP, domain access, and the kinds of actions your sheet supports well.
- Return to the fiction with the concrete result, cost, or benefit.

Try it

What is my class for?

Raw source

- Id: class-subclass
- Title: Class and Subclass
- Tag: rules-canon
- Summary: A PC's core playstyle, starting values, features, domains, and Hope Feature.
- When: Use when explaining what a pregen is good at or when a feature changes a scene.
- Not When: Do not summarize class as personality; it is a rules package plus a play lane.
- Question: What is my class for?
- Answer: It tells you your main features, starting Evasion, HP, domain access, and the kinds of actions your sheet supports well.
- Example: Khari's Guardian class makes body-blocking and protection scenes feel natural without making Khari the only solution.
- Related: domain-cards hope evasion hp
- Aliases: class subclass hope feature
- Source: Official SRD / local quickstart reference. Use private full-rulebook material only at the table.
