- Alt: Soul-Audit Wraith Pressure battlefield map board.
- Caption: Battlefield operating board for Soul-Audit Wraith Pressure.
- Mood: spatial reference and location texture
- Gmgoal: Support the HOLD/BREAK split with skeleton pressure, Death Move support, and countdown swing.
- Publicobjective: The wraiths drift closer. Their faces are the shape of remembered shame.
- Readaloud: The wraiths drift closer. Their faces are the shape of remembered shame.
- Gmnotes: Wraiths begin at Far or Very Far edges and pressure anyone isolated from the protective ring. Wraiths slide in where attention thins or where fear isolates a PC. Psychological and predatory; wraiths seek fear, isolation, and priced memory.
- Gmscript: Say: "This is the peak battle board. If they cluster, Group Attack. If someone hits last HP, Death Move. If the center holds, the outcome improves."
- Gmreadaloud: Everything hits at once. The Custodian flickers at the center. The rusted dead try to turn one gap into a collapse.
- Gmcheckboxlist: Use Group Attack if skeletons cluster. Offer Death Move heroically at last HP. Let any PC create the final countdown tick. Set ritual_outcome from HOLD/BREAK.
- Gmprivate: No single PC is required for the final blow; this map exists to spotlight shared sacrifice.
- Playertakeaway: The wraiths drift closer. Their faces are the shape of remembered shame.
- Storytakeaway: The peak makes the party choose what they save when they cannot cover everything.
- Mechanictakeaway: HOLD/BREAK, Group Attack, Death Move, Hope, and countdown all

write ritual_outcome.

- Fearsponds: Spend Fear to tick the ritual countdown, expose the Custodian, activate ward backlash, or trigger Market Correction. Tick the Ritual Countdown the wrong direction or expose the Custodian. Trigger Market Correction, Pass-Through, Memory Delve, or Group Attack when fiction supports it.
- Choicesconsequences: Use the peak skeleton map when HOLD/BREAK pressure needs spatial clarity. The map clarifies the active table choice instead of becoming a side route. Use the map only when spatial clarity changes the next roll, countdown tick, or protection choice. The result carries forward through Act 5 state rather than adding a new branch. ritual_outcome / protected_whom Reward: clearer play. Cost: pause only long enough to orient the table. GM-facing
- Spoilers: GM-only location fields, combat notes, canon notes, and hidden-truth context stay off the player display.
