- Takeawayhelp: Player takeaway The last fields are the Act 4 entry gate. "This is where Hush warmth ends and the Custodian path begins." "Safe route is clean. Dangerous or unknown route asks for Instinct 13 or costs 1 Stress." Do not strand the table here; resolve route quality and move forward. instinct knowledge stress Story takeaway The road proves whether Hush vouched for the party. "A town trust can become a road. A town caution can become a harder one." "Guided means vouched for. Unguided means they are finding the way without full trust." This is the cleanest Act 3 payoff before the reveal act. instinct knowledge stress Mechanic takeaway custodian_route controls the crossing. "Set custodian_route before S04-01: safe, dangerous, or unknown." "If package_status is lost, note the later reveal block and keep moving until the canon branch is confirmed." Route state affects immediate pressure; package state affects reveal viability. instinct knowledge stress
