- Caption: A possible future destination, not a new scene tonight.
- Mood: spatial reference and location texture
- Gmgoal: Name the official future destination without starting the future story.
- Publicobjective: The Relay stands westward beyond the trees, a beacon that should burn steady and does not.
- Readaloud: The Relay stands westward beyond the trees, a beacon that should burn steady and does not.
- Gmnotes: Do not add a next-section transition. The conclusion ends here.
- Gmscript: Say: "This is where a future story could begin. Tonight, it is a name on the horizon and a map she can give you."
- Gmreadaloud: The Relay stands westward beyond the trees. The beacon should burn steady and does not.
- Gmcheckboxlist: Frame as future destination only. Do not define the Relay Keeper's nature. Do not solve what is wrong there. End open-ended.
- Gmprivate: If the hidden hook lands, this is where the official rescue and the investigative question converge later.
- Playertakeaway: The Relay stands westward beyond the trees, a beacon that should burn steady and does not.
- Storytakeaway: The future destination is named, but the current one-shot remains complete.
- Mechanictakeaway: sequel_direction records relay, hidden, both, or undecided.

- Playerquestions: Do you want the map? Is this a next job, a mystery, both, or neither?
- Fearsends: None ? this is denouement. Save tension for the next adventure. Leave one thread dangling on purpose: the Custodian's offhand "or becomes sentient" about the Keystone. Don't explain it. Let it haunt.
- Choicesconsequences: Name it as a future job. The Relay stays a heroic future door. Set sequel_direction=relay if no hidden hook lands. The epilogue ends clean and adventurous. sequel_direction=relay Reward: clear sequel invitation. player-visible Name it as a bigger mystery. The Relay becomes a question, not just a rescue. Set sequel_direction=hidden or both if the table names the pattern. The epilogue ends with investigative momentum. sequel_direction=hidden|both Reward/cost: deeper unease. player-visible
- Spoilers: GM-only location fields, combat notes, canon notes, and hidden-truth context stay off the player display.

- Percharacterlayer: garrick-reed Garrick Reed Security playbook Garrick has seen staged danger, narrative control, and incident reports from the inside. Knowledge/Presence earned clue chain Can notice the pattern looks like a job, not nature. Can name the hidden pattern if the player reaches it. Garrick, you ran security for them. Does any of this start to look like a job to you? Want to say what you're seeing? marlowe-fairwind Marlowe Fairwind Magical seam If keystone_understanding is deep, Marlowe knows protection had a cost and can wonder who benefits from that cost. Knowledge gated by keystone_understanding=deep Connects the ward's consuming nature to the larger pattern without explaining the mechanism. Can make the hidden hook magical instead of bureaucratic. Marlowe, the ward consumes to protect. What if the danger it protects against is being made? Want to follow that thought? barnacle Barnacle Follow the money Barnacle has been asking who profits since the job started. Finesse/Knowledge earned clue chain Names who benefits every time the forest is called dangerous. Can turn the hidden hook into a clean rogue question: who gets paid? "You can leave it open, close it for now, or wonder what is under it." Do not overfeed tired players. report-choice table-spotlight Story takeaway The one-shot ends complete while leaving a possible next story. "Tonight ends here. The west is simply still there." "The Keeper and mechanism are intentionally deferred." No future plot is resolved now. report-choice table-spotlight Mechanic takeaway sequel_direction records which door stays open. "Set sequel_direction to relay, hidden, both, or undecided." "relay means the official hook; hidden means the table named the pattern; both means both doors stay open."
